N.B.

All Surface Dressing Schemes are conducted under a full road closure in the summer months. Dates are to be programmed with the contractor and will be confirmed in Q1.

It should be noted that this is a Scheme Proposal and where Somerset Council will work to deliver each and every scheme listed, there are external factors that can result in cancellations or late introductions of schemes within the Local Community Network otherwise not listed here. Additionally, this is the Structural Maintenance submission only. There will be a series of planned and reactive tasks carried out in your parish that are otherwise not detailed below.

To assist the efforts of the North, West and South Area Offices, the use of <https://one.network> is highly encouraged to self-serve queries in the first instance as detail of the works type, traffic management type, number of days and possible diversion routes can be found there.

As a breakdown within the Levels and Moors LCN, the schemes proposed for delivery are as follows: -

- 2no. Drainage schemes.
- 3no. Footways schemes.
- 6no. Resurfacing schemes.
- 44no. Surface Dressing schemes.
